MAKE YOUR MARK

We will all be defined by the unique impression we leave on the world—and those in it. We will be defined as individuals on a constant trajectory of refinement and improvement. And as a motor company reinventing the luxury vehicle day in and day out. This is a legacy built.

A mark is made not by fulfilling expectations, but exceeding them. Every mark sets the bar for the next one.

What brings us together as innovators, game-changers, disruptors—and sets us apart—is a willingness to challenge the status quo. To dare to go further than those who came before us. It takes coaxing inspiration out of the ordinary to create something far from it. And it takes countless hours of effort. What we put into the world forever changes it. So it better be something extraordinary. Something that stirs your emotions and captures your imagination.

In Genesis Magazine Issue 04, we herald the launch of two groundbreaking vehicles: The 2023 Genesis G90 sedan and the 2023 Genesis Electrified GV70 luxury SUV. We also look into the future of driver-centric design in the electrification era with our X Speedium Coupe concept. And we meet a young chef who brings her Oaxacan heritage to the world.

Between these pages, we're celebrating the one-year anniversary of Genesis House, which is lighting up the High Line and making our mark on New York's Meatpacking District with Korean cultural expression. And we're exploring the work of surrealist artists who use innovative digital modeling technology to create otherworldly images.

The stories brought together in this volume highlight the idea that every distinct mark has the power to move us all forward—the power to thrust a cuisine, a conversation, or an industry into a brighter, bolder future. Who's with us?

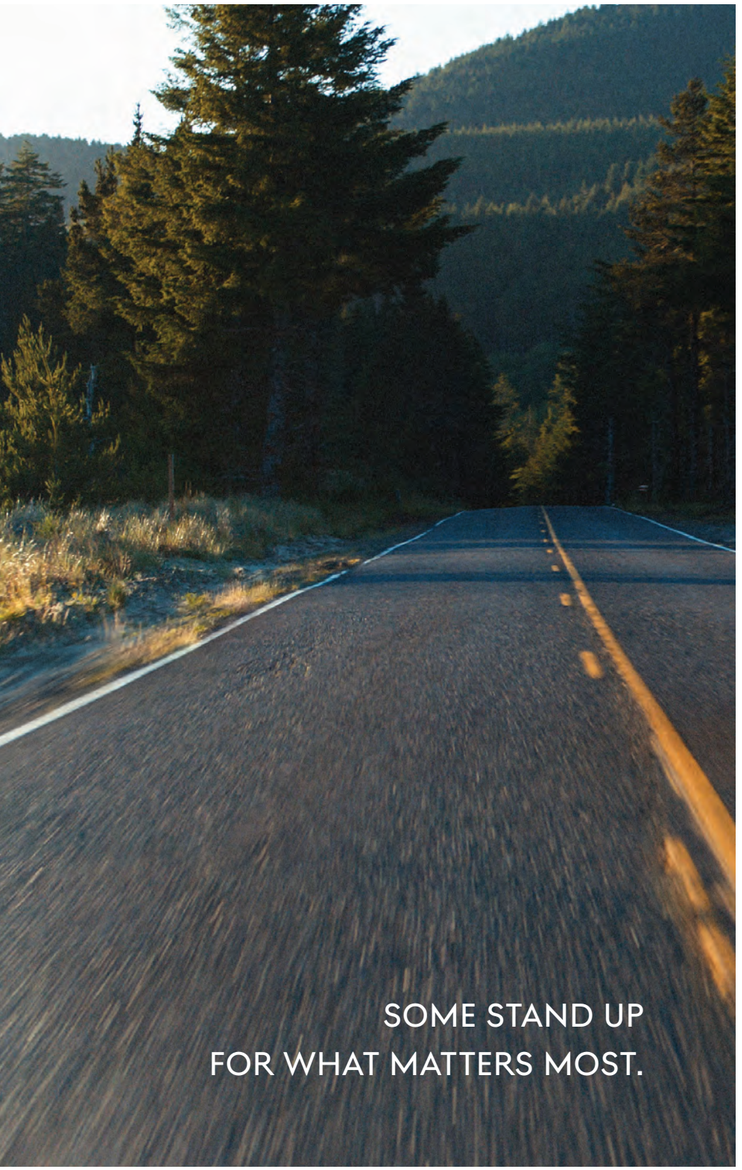
SOME PRIORITIZE WHAT IS RIGHT.



SOME STAND UP
FOR WHAT MATTERS MOST.

GENESIS
GV80

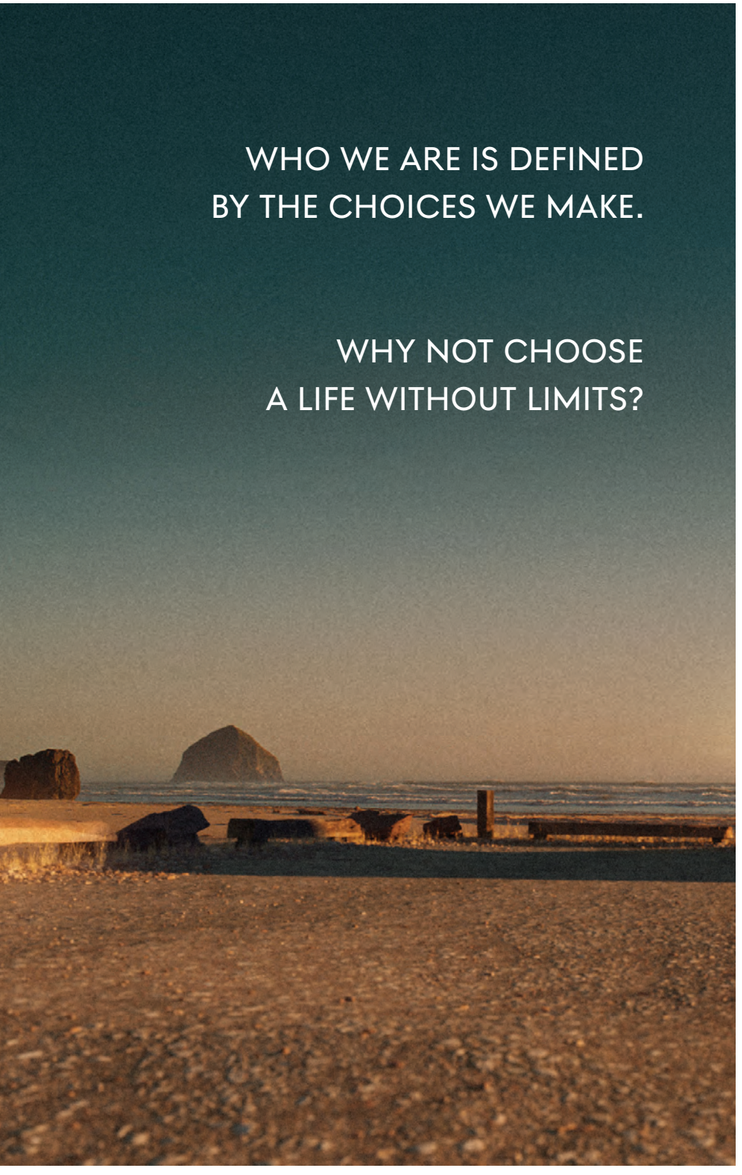
SOME TAKE THE NEVER-TRAVELED PATH.

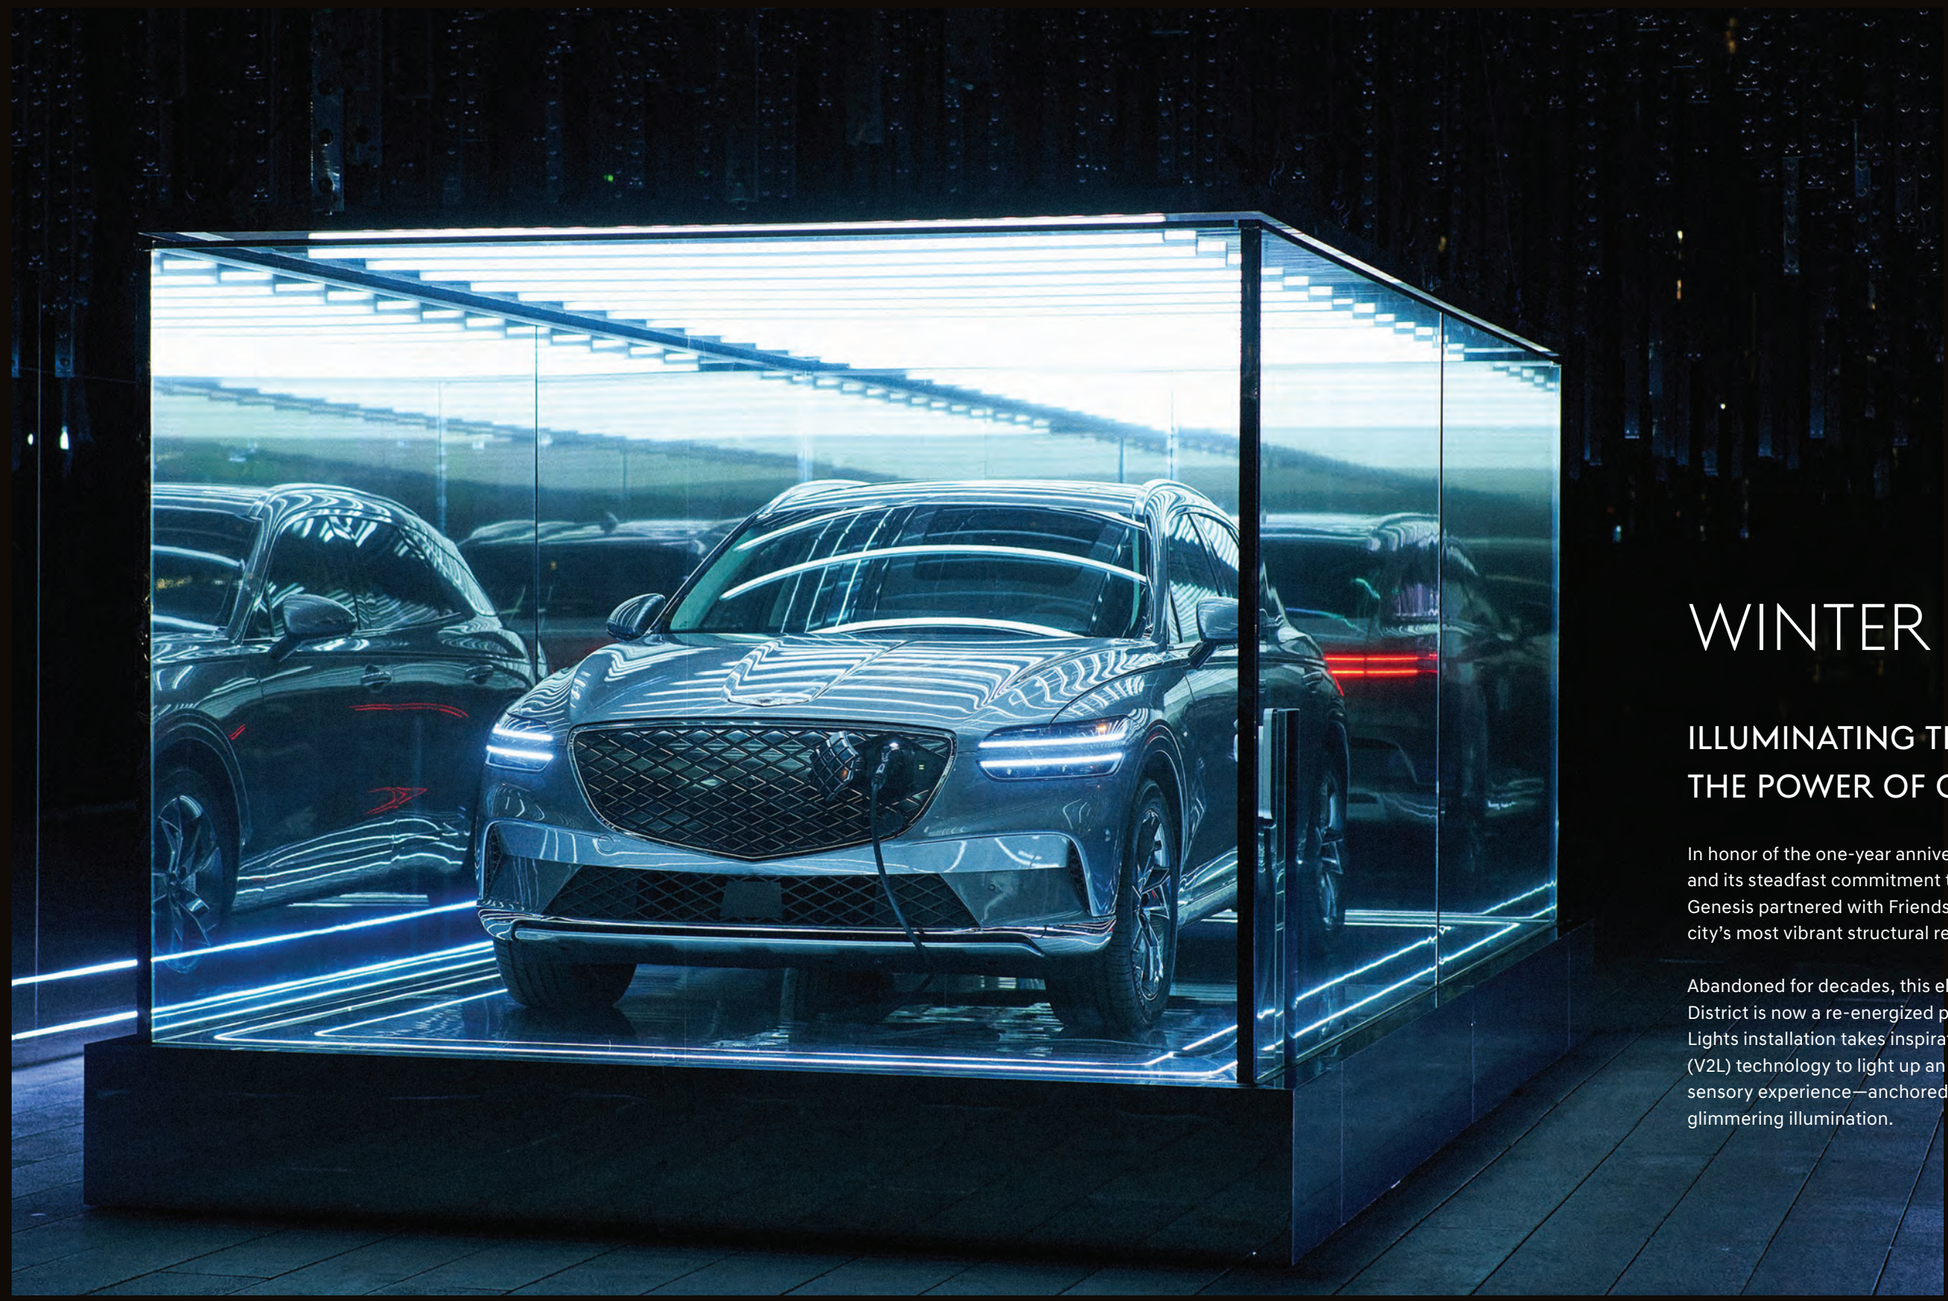
IT'S ON THAT ROAD—OR OFF
OF IT—WHERE WE DISCOVER
WHO WE TRULY ARE.

HERE, WE LEARN WHAT WE TRULY VALUE, WHAT GIVES LIFE MEANING.

WHO WE ARE IS DEFINED
BY THE CHOICES WE MAKE.

WHY NOT CHOOSE
A LIFE WITHOUT LIMITS?





WINTER LIGHTS

ILLUMINATING THE HIGH LINE WITH THE POWER OF GENESIS ELECTRIFIED.

In honor of the one-year anniversary of New York's Genesis House—and its steadfast commitment to sustainability and community—Genesis partnered with Friends of the High Line to electrify the city's most vibrant structural reclamation project.

Abandoned for decades, this elevated rail line in the Meatpacking District is now a re-energized park and greenway. Our Winter Lights installation takes inspiration from Genesis Vehicle-to-Load (V2L) technology to light up an entire city block with an immersive sensory experience—anchored by Genesis vehicles shrouded in glimmering illumination.

GENESIS

AN UNFORGETTABLE EVENING FOR THE GENESIS G90

Vision. Passion. And a penchant for arriving in style. At the launch of the 2023 Genesis G90, we celebrated those who make their mark on the world. Staged at the iconic Genesis House in New York City, we brought together top minds from the fashion industry for a conversation with Genesis Motor America's Chief Designer, John Krsteski. Vogue's Lynn Yeager and MONSE co-founders Laura Kim and Fernando Garcia touched on topics ranging from creativity and authenticity to the pinnacle of luxury—the Genesis G90 sedan—for an inspired evening marked by innovative design. And just the right amount of decadence.

Bricia Lopez, America's Most Acclaimed Oaxacan Chef

THE ELECTRIC DISH

ELECTRIFIED GV70 AND CHEF BRICIA LOPEZ

Here's an unexpected recipe: Take an award-winning luxury SUV. Electrify it with 320 kW / 429-horsepower EV motors. Cast acclaimed Oaxacan chef Bricia Lopez to play herself in a launch film that adds intrigue—and electricity—to a dinner party. Sprinkle in a gastronomy-infused storyline that could only happen in one place, Los Angeles. Then, partner with Bustle to reach a youthful audience hungry for unconventional content. Voila! You have *The Electric Dish*, the first-ever short film from Genesis.

Preproduction model shown with optional features. Actual production model may vary.

CALIFORNIA STAR

It’s not every day you cast one of America’s rising culinary talents to be in a film. Bricia Lopez, the star of *The Electric Dish*, has made her mark dazzling Los Angeles foodies with her hot takes on Oaxacan classics and mezcal cocktails. At her family restaurant La Guelaguetza and beyond, Lopez has helped showcase a thriving, often-overlooked culture that is instrumental to the vibrant diversity of Los Angeles. Restaurateur. Author. Activist. Now she can add film lead to her already fine resume.

Director Alice Gu and Chef Bricia Lopez on the set of “The Electric Dish”.

SECRET INGREDIENT?
PLUG IT IN AND FIND OUT.

With uncompromising design, leading-edge tech and pulse-quickening power, the 2023 Genesis Electrified GV70 boldly confronts convention. And leaves it in the rearview mirror. With up to 429 horsepower underfoot[1] (and an additional 54 horsepower on tap via a 10-second boost), it moves with real pace. Perfect for any kind of pantry-filling grocery run, it charges in less than 18 minutes, getting you were you need to go in comfort and style. Clad in available Nappa leather and sporting features like a floating center console with jewel-styled controls, the Electrified GV70 interior is a mobile sanctuary—and a welcome respite from the heat of the kitchen.

[1]Estimated horsepower based on ideal conditions. Various factors may result in reduced output. Your actual horsepower will vary with options, powertrain, driving conditions, driving habits and vehicle's condition.

Director Alice Gu and Chef Bricia Lopez on the set of "The Electric Dish".

AN ELECTRIC PREMIERE

A Genesis red-carpet event hosted at Hollywood's NeueHouse brought together executives, artists, influencers—even an electric violinist—to celebrate the reveal of the Electrified GV70 and a first screening of *The Electric Dish* short film. Gourmet food, amazing company and decadent treats from Los Angeles-based chocolatier Compartes offered the perfect finishing touches to a deliciously energized new-vehicle launch.

ARTIST SERIES

GENESIS G90 REIMAGINED

We made our mark with the 2023 Genesis G90 luxury sedan. Then we invited a group of avant-garde digital artists to make theirs. Featuring the G90 in a variety of otherworldly environments, visual artists utilized 3D modeling, motion graphics and digital illustration to reimagine the definition of luxury.
