SAFETY

The Advanced Driver Assistance System autonomously analyses driving conditions and detects hazardous situations to assist the driver in preventing collisions before they happen. Additionally, it assists with the driver’s acceleration, brake pedal, and steering wheel operations to enable stress-free driving under a wide range of road conditions.

Forward Collision-avoidance Assist 2 (FCA)

Blind-spot Collision-avoidance Assist (BCA)

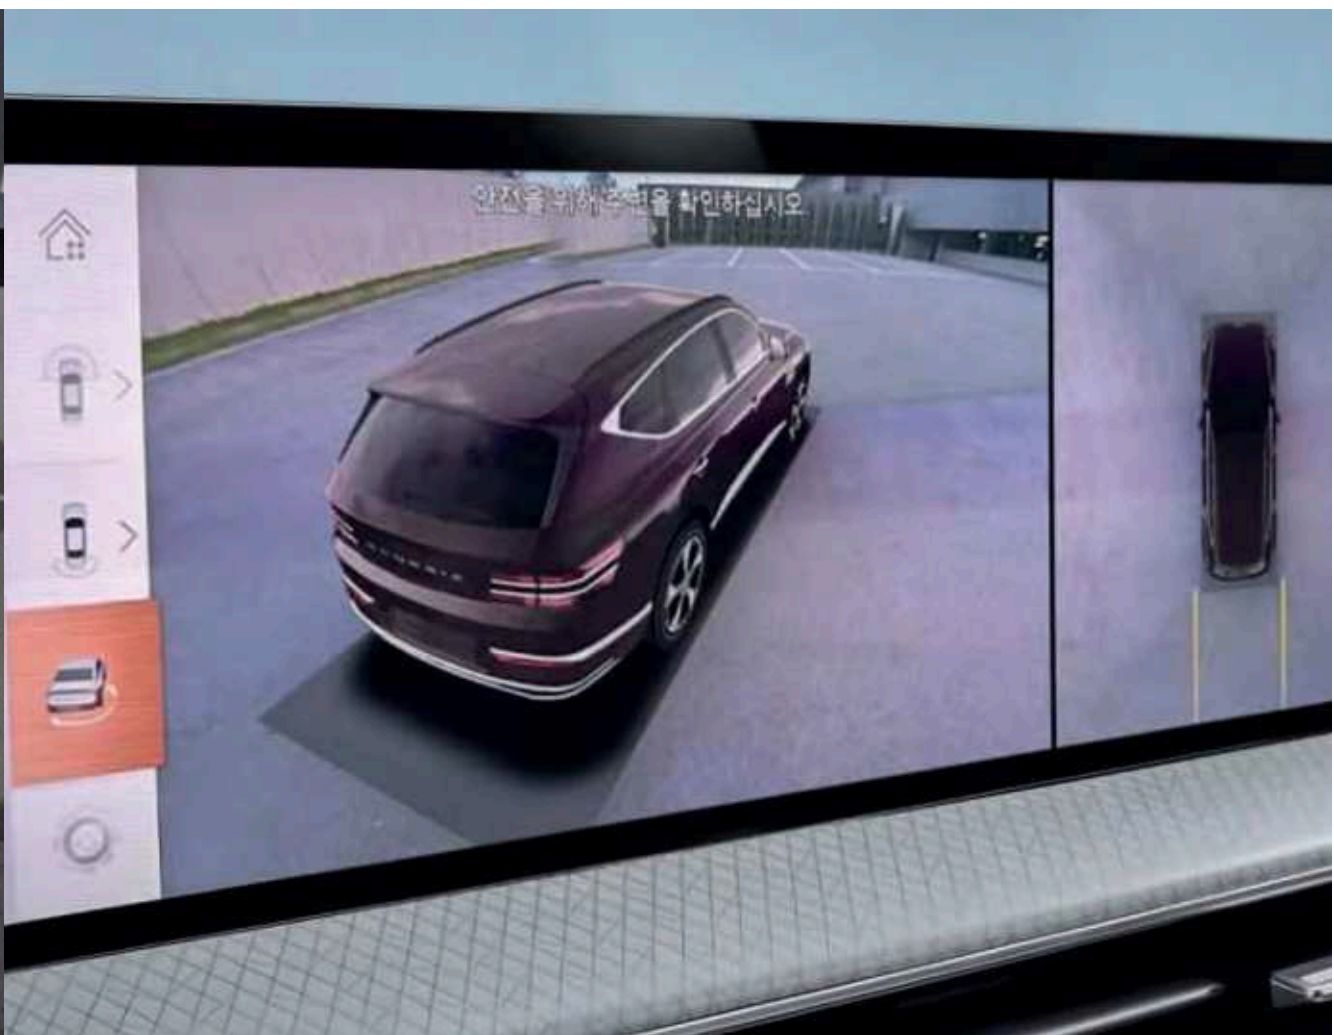

Reverse Parking Collision-avoidance Assist (PCA-R)

Lane Keeping Assist (LKA)

Rear Cross-traffic Collision-avoidance Assist (RCCA)

Surround View Monitor (SVM)

*Safety features are for the driver’s convenience only and are designed to assist the driver in operating the vehicle, drivers must always stay alert when driving.
*Some features may not function smoothly under certain environmental/driving/operating conditions. Please refer to the driver’s manual for details.
