

# GENESIS G90

2023

# LUXURY IS A STATE OF MOOD

The 2023 G90 is the most unrestrained interpretation yet of how Genesis is redefining luxury for a new generation. You can see from its proportions – epic, yet athletic and refined – that the G90 moves luxury sedan design in a bold new direction.

Look beyond the intricate details of its precisely sculpted exterior, and you will enter an interior crafted to be your personal inner sanctum. The G90's new Mood Curator integrates elements of the audio, seat massage and ambient lighting systems to create sensations of modern luxury in its most complete form.

How complete? There's even a fragrance system that disperses relaxing scents throughout your G90's cabin. Welcome to an exquisite experience that elevates your physical and emotional comfort like never before.

## RAISE YOUR PROFILE

On the new G90, the language of Genesis Design is used to stunning effect. Its bold Crest Grille layers two G-Matrix patterns to create three-dimensional dazzle. Framing the Crest Grille are our signature Two-Line Headlamps, whose ultra-thin design includes low beams powered by Micro Lens Array technology.

The new G90's side profile is marked by a Parabolic Line that extends rearward in a sweeping arc from the Clamshell Hood – a single panel that combines the hood and fenders to eliminate panel gaps. Dynamic lines form a muscular presence that extends through the flush door handles to the rear, where Two-Line Rear Combination Lamps widen the car's athletic stance.

If the design of the G90 enhances your perceptions about Genesis, so will this performance metric: In its 2022 U.S. Vehicle Dependability Study, J.D. Power ranked Genesis #1 in long-term dependability among luxury brands.<sup>1</sup>

DRIVE YOUR  
NARRATIVE

Air Suspension Height Control on freeway

Air Suspension Height Control on incline

## CHOOSE THE SOURCE OF YOUR POWER

The new G90 is offered with two All Wheel Drive powertrains. The G90 3.5T AWD is powered by a 3.5L Twin-Turbo V6 that delivers 375 horsepower and 391 lb-ft of torque.<sup>2</sup> The G90 3.5T e-Supercharger AWD adds a 48V electric supercharger that punches up the output to 409 horsepower with 405 lb-ft of torque available at a lower rpm range.<sup>2</sup> This electronic assist cuts low-speed turbo lag, resulting in quicker launches off the line and smoother highway-speed passing.

Ready to roll? Choose a drive mode to suit your mood: Comfort for a smooth ride. Sport for quicker response. Or a Chauffeur mode that caters to the comfort of rear passengers. There's also a new Rear Wheel Steering system available to help reduce your turn radius and improve cornering by adjusting the angle of the rear wheels up to four degrees.

Ride comfort is further optimized by an Electronically Controlled Suspension with Road Preview that scans the road ahead and instantly makes micro-adjustments. An available Multi-Chamber Air Suspension lowers the G90 at higher speeds for stability, and raises the ride height over rough terrain in sync with your chosen drive mode.

Even the G90's braking can be customized. Choose Comfort Mode for smooth and stable braking, Sport Mode for a more dynamic response, or Chauffeur Mode to optimize the comfort of rear-seat occupants.

3.5T AWD		
375 HP	391 LB-FT	8-SPEED
Maximum Output <sup>2</sup>	Maximum Torque <sup>2</sup>	Automatic Transmission
3.5T E-SUPERCHARGER AWD		
409 HP	405 LB-FT	8-SPEED
Maximum Output <sup>2</sup>	Maximum Torque <sup>2</sup>	Automatic Transmission

# SAFETY BORN OF INTELLIGENCE

The suite of safety technologies in the new G90 form one of the most advanced protection systems ever offered in an automobile. Its focus? Helping you be a smarter driver. When systems like Highway Driving Assist are activated,<sup>3</sup> a new feature called Hands-On Detection determines whether or not you're holding the steering wheel, issuing warnings when necessary.<sup>4</sup>

As you move down the road, Forward Collision-Avoidance Assist stands guard. In addition to helping avert collisions with slowed or stopped cars, pedestrians or cyclists in front of your G90, it can assess the risk of colliding with oncoming or cross traffic in an intersection – or the threat of a collision while changing lanes – and assist with automatic emergency braking or avoidance steering.<sup>5</sup>

To help guide your way into tight parking spaces and gauge curb clearance when parallel parking, there's a Surround View Monitor that uses four cameras to display a 3D view of your G90's perimeter. A remote image capture feature even lets you check your car's surroundings on your smartphone while you are away.<sup>6</sup>

2022 Genesis G90<sup>7</sup>

- 01 HEAD-UP DISPLAY**  
A Head-up Display can be activated to project critical driving information onto the windshield for at-a-glance updates on your speed, navigation and safety alerts.
- 02 REAR CROSS-TRAFFIC COLLISION-AVOIDANCE ASSIST AND PARKING COLLISION-AVOIDANCE ASSIST**  
The G90 comes standard with Rear Cross-Traffic Collision-Avoidance Assist and Parking Collision-Avoidance Assist for front, side and rear detection areas. Both features apply automatic braking to help prevent mishaps if a hazard is detected while backing out of parking spaces in reverse gear.<sup>8</sup>
- 03 BLIND-SPOT VIEW MONITOR AND BLIND-SPOT COLLISION-AVOIDANCE ASSIST**  
Activate your turn signal, and a Blind-Spot View Monitor displays video from the G90's side-view camera in the instrument cluster.<sup>9</sup> Like an extra set of eyes when you approach the line markings for your lane change, the G90 engages subtle steering intervention automatically to help avoid collisions if a vehicle is detected in the rear blind spot.<sup>10</sup>
- 04 SAFE EXIT ASSIST AND REAR OCCUPANT ALERT**  
Safe Exit Assist warns the driver if an approaching vehicle is detected alongside an opening door.<sup>11</sup> A sensor in the G90's headliner scans for rear seat movement after you exit and lock your car. If movement by a child or pet is detected, it sounds the horn, flashes its lights and sends an alert to your phone.<sup>12</sup>
- 05 HIGHWAY DRIVING ASSIST AND NAVIGATION-BASED SMART CRUISE CONTROL – CURVE**  
Beyond working with Highway Driving Assist to help keep you centered in your lane at a safe cruising distance from the vehicle in front – while automatically adjusting for changing speed limits – the G90's Smart Cruise Control also reduces your speed automatically when entering a curve, then resumes your previously set speed after exiting.<sup>13</sup>

## IT KNOWS WHO THE BOSS IS – YOU ARE

Hidden flush with the body, the G90's door handles are nearly invisible. How do you open them? With the Genesis Digital Key 2 app downloaded to your compatible smartphone, all you need to do is walk toward your G90. Ultra-wideband sensors recognize your Digital Key, and the door handles magically emerge – no key fob is required. The Genesis Digital Key is now compatible with Apple iPhone®

and Apple Watch® – you can store the key in your Apple Wallet® and share it with family members via iMessage.® The doors automatically unlock as you approach, allowing you to step inside and start your G90 at the press of a button.<sup>14</sup> Another touch of a button, or a tap of the G90's brake pedal, activates an available feature called Easy Close Power Doors, which softly shuts any open doors for you.

### REMOTE SMART PARKING ASSIST 2

Parking is never a problem for the new G90, thanks to its Remote Smart Parking Assist 2 technologies. Functions like steering, braking and other parking maneuvers can be operated outside the vehicle. The G90 can recognize not only parking spaces, but parking lines and surrounding objects – making it possible to remotely park your car in parallel, perpendicular or diagonal fashion.<sup>15</sup>

### HANDS-FREE SMART TRUNK

Approaching your car with an armful of groceries or gear? No problem. The G90's Power Hands-Free Smart Trunk recognizes your key fob or your Genesis Digital Key and automatically pops the trunk open when you stand within three feet of the rear of the car for three seconds.<sup>16</sup>

### FINGERPRINT AUTHENTICATION SYSTEM

In addition to enabling you to start your car without having to tote a key fob in your pocket or purse, the G90's Fingerprint Authentication System can be used as an identity verification method for loading driver profile settings for your seat and side mirrors, radio presets, and more.<sup>17</sup>

## LUXURY IS UNCLUTTERED

As Genesis designers integrate a vast array of features and functionality into the car, where they end up must remain as pure as possible. The new G90 interior is a minimalist space where you are surrounded by elegant simplicity.

# INVEST IN PRIME REAL ESTATE

Let's be clear: With its quilted Nappa Leather Seating Surfaces, every seat in the new G90 is a highly desirable location. So where would you prefer to sit?

If your answer is 'up front', you are going to enjoy ergonomically precise seating designed to keep your body supported and relaxed at all times. The G90 comes standard with heated and ventilated seats for the driver and front passenger. Power adjustments include 18-way movement of the driver seat, and 16-way movement for the passenger seat.

Both front seats include a 4-way power headrest and an Entry & Exit feature that deflates the air cells in the seat bolsters so you can smoothly slide in and out of your G90. Select the Sport Drive Mode, and those bolsters inflate to help hold you in place during spirited cornering.

An Ergo Relaxing Seat feature (standard in front and available for rear passengers) adds a massage function with four different modes. Ten air pockets in each seat back and a two-cell seat cushion provide varying intensities of soothing massage. Use the G90's Mood Curator to select the Care or Comfort modes, and your seat's massage intensity adjusts accordingly.

## FOR THOSE WHOSE DRIVE IS TO BE DRIVEN

Open the rear doors of the new G90, and you enter a world where the passenger is paramount. It's all about accommodating their desire to sit back, relax and unwind in total comfort.

Available power reclining and sliding rear seats can be adjusted independently, and the new G90 offers a greater reclining angle and improved cushion tilt for exceptional anti-gravity posture. The rear seats are heated, of course, and available with cooling ventilation and massage functions. The right rear seat includes a power leg rest to keep you at ease, even on the longest journey.

An 8" Rear Center Armrest Touch Display allows rear passengers to orchestrate their entire surroundings – everything from climate controls and ambient lighting to an available seat massage function and Power Rear Side Sunshades.

The Rear Center Armrest also houses a sanitizing tray that uses UV-C LED lamps to disinfect small items such as golf gloves or smartphones. The process takes just 10 minutes.<sup>18</sup>

# PRESS A BUTTON – CHANGE YOUR MOOD

The purpose of luxury is simple – to make you feel exceptionally good. In the new G90, that aim is now pursued using one of the most creative concepts ever offered in a luxury car: The Mood Curator. With it, the interior ambiance of your G90 can instantly alter its emotional profile to one of four modes: Vitality, Delight, Care or Comfort.

Choose your mode, and Mood Curator does the rest. It adjusts everything from the ambient lighting color and seat massage intensity to power sunshades, an audio soundtrack – even an onboard fragrance system – at the press of a button.

Feeling fatigued by stop-and-go traffic? Select Vitality mode, and Mood Curator alters your environment to help you feel energized. Just finished a long conference call? Select Comfort, and your G90 serves up relaxing music, lighting, fragrance and seat massage.

It’s that simple.

## THE SCIENCE OF SERENITY

Quietness has always been among the defining characteristics of a world-class luxury sedan. To preserve the tranquility of your experience, the Genesis G90 employs an innovation called Active Noise Control – Road. It continuously sends inverted sound waves throughout your G90’s cabin to help cancel the sound waves that create road noise while driving.

It’s so precise that each seat in your G90 receives a specific signal tailored to what the car’s microphones detect at each position. The system also responds to the unique acoustic signature of each tire – even as that signature sound changes throughout the life of the tire. Welcome to the next wave of acoustic quality.

# INFOTAINER OF THE YEAR

There's no such annual award, of course, but perhaps there should be. When it comes to integrating information, navigation and the audio personalization of Mood Curator, the new G90 delivers a game-changing performance.

The new Connected Car Integrated Cockpit offers a cloud-based multimedia platform that links the instrument cluster, audio and navigation systems into a fluid panoramic display. Content, cloud-connected driver profiles<sup>19</sup> and navigation are seamlessly shared between the two 12.3" displays and a Head-Up Display you can project onto the windshield.

Front and center, the digital instrument cluster can display your navigation views or the status of advanced driver assist safety features. To your right, the center console split screen can be customized to display navigation maps, smartphone apps, audio and other media simultaneously.

Over-the-Air Updates help keep the G90's major electronic systems – everything from the Navigation System and Color LCD Instrument Cluster to the advanced driver assistance system software – updated with the latest features.<sup>20</sup>

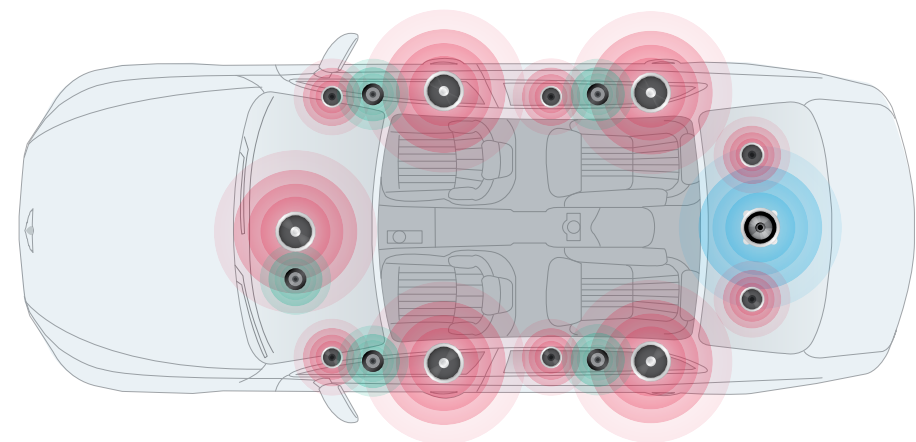

## AUDIO ORCHESTRATED AROUND YOU

The G90's available Bang & Olufsen® 3D Premium Audio System places 26 speakers – including pop-up tweeters – strategically throughout the cabin. Fourteen channels and two separate amplifiers support speaker locations that include the car's headliner and headrests.

This system's Surround Sound includes a Virtual Venues Live feature that replicates the acoustics matching the sonic profile of big venues like Boston Symphony Hall, or more intimate settings like Bang & Olufsen's Beohome living room experience. The system minimizes exterior noise by adjusting the in-car volume depending on the speed your G90 is traveling.

# GENESIS CONNECTED SERVICES

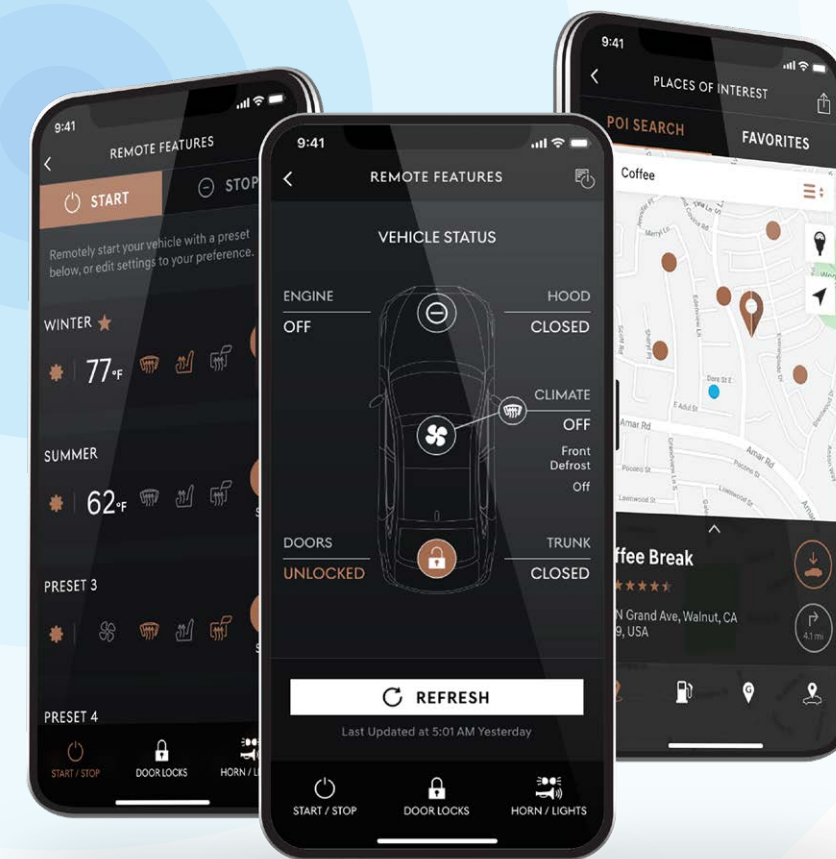

With the Genesis App, you can remotely check to see if you have left your G90's doors unlocked or a window open – even view an overhead snapshot of your car and its surroundings – on your mobile device.<sup>21</sup>

Want your G90's cabin to be the perfect temperature when you enter? Ask your Genesis App or Amazon Echo®/Google Home™ device to remotely start the engine and climate controls before you walk out the door.<sup>22</sup> The app also includes a Valet Mode to help you keep tabs on your car.

Lost in a sea of cars outside of a shopping mall or long-term parking lot at the airport? We've all been there. Thankfully, the Genesis App can locate your car using your smartphone.<sup>21</sup> You can also use your phone to pinpoint your next destination and send it to your G90's navigation system before you get behind the wheel.<sup>23</sup>

It's all part of Genesis Connected Service's wide range of remote, safety and car care features that include monthly vehicle health reports, maintenance reminders, and much more. For information on all of the services available to G90 owners, visit [genesis.com](https://genesis.com).<sup>24</sup>

# GENESIS EXPERIENCE

Our thoughtfully crafted suite of owner benefits is designed to enhance not just the way you drive, but the way you live. They reflect our profound commitment to meeting your needs and wants precisely. And while we can't make more of it, the time-saving features of our Genesis Experience will help you spend your time where it matters most.

## COMPLIMENTARY SERVICE VALET

You may never need to set foot in our service center. With our Genesis Service Valet (complimentary for three years or 36,000 miles), we'll perform a remote diagnostic check, pick up your vehicle, send a Courtesy Loaner Vehicle and return your G90 when the scheduled maintenance or warranty repair is complete.<sup>25</sup>

## COMPLIMENTARY SCHEDULED MAINTENANCE

Enjoy a worry-free Genesis ownership experience with Complimentary Scheduled Maintenance for three years or 36,000 miles, whichever comes first. Includes oil changes and tire rotations, as well as select wear items like wiper blades, brake pads and alignments as needed.<sup>26</sup>

## 24/7 ENHANCED ROADSIDE ASSISTANCE

Peace of mind is another essential luxury. Should your travel plans take an unexpected turn, five-year complimentary Roadside Assistance provides tire changes or transportation to the nearest Genesis retailer. Reimbursement for an overnight stay is included if needed.<sup>27</sup>

## GENESIS CONNECTED SERVICES

Every new G90 includes a complimentary subscription for Genesis Connected Services. It's an exclusive suite of safety, car care, guidance and remote features that help keep you connected to your digital life and the things you need on the go.<sup>24</sup>

## SIRIUSXM® ALL ACCESS SATELLITE RADIO

Complimentary for your first three months, SiriusXM All Access offers you one of the widest varieties of entertainment at your fingertips. Enjoy every channel available on your satellite radio – including personalized online stations powered by Pandora® – and listen in your G90 or on your computer, smartphone or tablet with the SiriusXM app.<sup>28</sup>

## NAVIGATION AND MULTIMEDIA UPDATES

To ensure you're accessing up-to-date driving directions, your G90's navigation system comes with annual map updates – complimentary for three years during routine maintenance visits with Genesis. Over-the-Air Updates are available through Genesis Connected Services.<sup>29</sup>

FOOTNOTES

<sup>1</sup>Genesis received the fewest reported problems in its segment in the J.D. Power 2022 U.S. Vehicle Dependability Study based on 2019 models. See [jdpower.com/awards](https://www.jdpower.com/awards) for details. <sup>2</sup>Estimated horsepower and torque ratings with premium fuel. <sup>3</sup>Highway Driving Assist (HDA), when used in conjunction with Lane Following Assist and Smart Cruise Control, is for highway use only and can help keep your vehicle centered in its lane while maintaining a safe distance from other vehicles ahead when the lane markings are clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. The driver remains responsible to slow or stop the vehicle to avoid a collision. See Owner's Manual for details and limitations. <sup>4</sup>Hands-On Detection is designed to detect when the driver is holding the steering wheel. The driver is responsible for always maintaining command and control of the vehicle and keeping hands on the wheel at all times. See Owner's Manual for further details and limitations. <sup>5</sup>Forward Collision-Avoidance Assist (FCA) with Pedestrian and Cyclist Detection helps detect pedestrians and cyclists, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles, pedestrians or cyclists under certain road, weather and vehicle conditions. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for the system's alerts before braking as there may not be sufficient time to brake safely. Lane-Change Oncoming helps the driver avoid collisions involving drifting into an oncoming traffic lane by applying the opposing front brake only when the lane markings are clearly visible on the road. There are limitations to the function, detection, range and clarity of the system. Lane-Change Oncoming may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. It will not prevent loss of control. This driver assistance system is not a substitute for safe driving. See Owner's Manual for details and limitations. <sup>6</sup>The Surround View Monitor is a parking support system. It cannot completely eliminate blind spots, may not detect every object and does not warn of moving objects. Always check your surroundings before moving your vehicle. See Owner's Manual for details and limitations. Remote features require a Genesis Connected Services subscription and are subject to adequate cellular coverage, signal strength and battery power. <sup>7</sup>To qualify for 2022 TOP SAFETY PICK+, a vehicle must earn good ratings in the driver-side small overlap front, passenger-side small overlap front, moderate overlap front, side, roof strength and head restraint tests. It also must earn an advanced or superior rating for vehicle-to-vehicle and vehicle-to-pedestrian front crash prevention and come with standard acceptable- or good-rated headlights. For details visit [www.iihs.org](https://www.iihs.org). <sup>8</sup>Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross-traffic behind their vehicle. When another vehicle is detected while you are backing out of a parking spot, it provides audible and visual display warnings and helps apply braking if it senses a collision is imminent. RCCA is active when the vehicle is in reverse gear and backing at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle. Never rely exclusively on RCCA. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. Parking Collision-Avoidance Assist (PCA) can alert the driver of a potential hazard in the detection areas by providing an audible warning and applying light braking. PCA is active when the vehicle is operating at low speeds. Never rely exclusively on PCA. It cannot prevent all collisions and may not provide alerts or braking in all conditions. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. <sup>9</sup>The Blind-Spot View Monitor (BVM) assists the driver in changing lanes by providing a live view of the blind spots on either side of the vehicle and sounding an audible alert if another vehicle is detected. The turn signal must be activated, and other system limitations apply. Do not rely exclusively on BVM. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for details and limitations. <sup>10</sup>Blind-Spot Collision-Avoidance Assist (BCA) warns the driver of other cars in the blind-spot region. If BCA detects an unsafe lane change being attempted, it applies steering intervention to help avoid a collision. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot and may not operate if sensors are obscured in any way. Do not rely exclusively on BCA. BCA is a supplemental system, and it is the driver's responsibility to exercise caution when changing lanes. Refer to your Owner's Manual for details and limitations. <sup>11</sup>When your vehicle is parked, Safe Exit Assist (SEA) can alert occupants planning to exit if a vehicle is detected to be approaching from behind. SEA is not a substitute for attentive driving. See Owner's Manual for details and limitations. <sup>12</sup>When the vehicle is parked and the engine has been turned off, Advanced Rear Occupant Alert (AROA) can help alert the driver if it detects movement from a child or pet inside the vehicle. Upon exiting and locking the vehicle, AROA may provide visual, audible and/or Genesis Connected Services (GCS) alerts if the interior sensors detect movement. AROA is not a substitute for driver attentiveness. Never leave a child or pet unattended in a vehicle. GCS notification requires a properly equipped vehicle with an active GCS account. See Owner's Manual for details and limitations. <sup>13</sup>Highway Driving Assist

(HDA) is for highway use only and helps keep your vehicle centered in its lane while maintaining a set distance from the vehicle ahead. Lane markings must be clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the vehicle to avoid a collision. See Owner's Manual for details. Auto Curve Slowdown is for highway use only and works in conjunction with SCC or HDA when navigation map data is available. It will not work under all circumstances. Driver remains responsible for driving at posted speeds. See Owner's Manual for details. <sup>14</sup>Near Field Communication (NFC) Digital Key requires a compatible iPhone,® Apple Watch® or Samsung Galaxy® phone. Not all Android, Apple or Samsung devices are compatible. Digital Key sharing requires an active Bluetooth account with Remote package. See your Owner's Manual for further details and limitations. Apple® is a registered trademark of Apple Inc. Samsung® is a registered trademark of Samsung Electronics Inc. Google, Android and Android Auto are trademarks of Google Inc. <sup>15</sup>Remote Smart Parking Assist can remotely park the vehicle. However, several factors can reduce the performance of this feature. The parking sensors may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with sensor operation. Always inspect the parking area with your own eyes. See Owner's Manual for details and limitations. <sup>16</sup>The smart trunk will open when your Proximity Key is within 3 feet of the detection area for at least 3 seconds. Radio transmitters and other vehicle smart keys may interfere with the normal operation of this feature. See Owner's Manual for details and limitations. Always close your trunk before operating your vehicle. <sup>17</sup>Remote features require an active Genesis Connected Services subscription and are subject to adequate cellular coverage, signal strength and battery power. <sup>18</sup>UV-C sanitizing tray does not fully protect against all bacteria or viruses such as COVID-19. Only the exposed surface of an item will be disinfected. Effects vary depending on the item's exposure to the UV-C light source, as well as the size, shape, and volume of the item being disinfected. Surfaces in contact with the bottom of the unit may not be fully disinfected. For best results, shift the position of items within the unit and repeat the disinfection process. Turn off the operation button when not in use. UV rays are emitted when the UV-C antibacterial system is activated. Minimize eye or skin exposure when turning on the UV-C LED system. Prolonged exposure to UV rays may result in discoloration or deformity of items within unit. See Owner's Manual for further details and limitations. <sup>19</sup>Requires an active Genesis Connected Services subscription. <sup>20</sup>Over-the-Air Updates require an active Genesis Connected Services subscription. <sup>21</sup>Remote features are subject to adequate cellular coverage, signal strength and battery power, and only available in the 50 United States. You must be an active subscriber or within the initial free-trial period to receive Genesis Connected Services. <sup>22</sup>Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google Home and Google Assistant are trademarks of Google Inc. <sup>23</sup>Requires active Genesis Connected Services subscription with Guidance package. <sup>24</sup>Genesis Connected Services requires an active subscription agreement subject to the Connected Services Terms and Conditions. Complimentary subscription term starts from the new vehicle date-of-first-use and is available for new 2023 model year vehicle purchases and leases, as well as transferable to subsequent owners subject to the Terms and Conditions. Only use Genesis Connected Services and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. For more on details and limitations, visit [genesis.com](https://genesis.com) or an authorized retailer of Genesis branded products. <sup>25</sup>Genesis Service Valet is available for original purchaser of the vehicle from Authorized Genesis Retailers during the scheduled maintenance period, which includes scheduled maintenance and normal wear, parts replacement or warranty repairs to your vehicle for 3 years or 36,000 miles, whichever comes first. Coverage area varies by retailer. Charges and fees may apply. Contact your Authorized Genesis Retail Service Advocate for details. <sup>26</sup>Genesis Complimentary Maintenance is for 2023 model-year vehicles for normal factory-recommended scheduled maintenance for 3 years or 36,000 miles, whichever comes first. Ownership limitations and exclusions may apply. See your Genesis Retailer for details. <sup>27</sup>Genesis Roadside Assistance is a limited and complimentary service for 5 years/unlimited miles from date of first use. Coverage is effective from the date the vehicle is delivered to the first retail buyer, or otherwise put into service (in-service date), whichever is earlier. Mileage and ownership limitations may apply. See your Genesis Retailer for details. <sup>28</sup>All SiriusXM services require a subscription sold separately, or as a package, by Sirius XM Radio Inc. after the trial period has elapsed. The subscription plan you choose will automatically renew, and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at [siriusxm.com](https://siriusxm.com). All fees and programming subject to change. Satellite and outside-the-car lineups vary slightly. Sirius, XM, SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc. <sup>29</sup>Multimedia and Navigation Map Care updates are available annually for 2023 model-year vehicles for 3 years after purchase with a regularly scheduled maintenance appointment. Availability timing of software updates may vary. Ownership limitations may apply. See your Genesis Retailer for details. Over-the-Air Updates require a Genesis Connected Services subscription. <sup>30</sup>EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle's condition. <sup>31</sup>Powertrain Limited Warranty available for original retail owner only. <sup>32</sup>For further details and limitations regarding the Genesis Brand Warranty, contact your Genesis retailer or visit [genesis.com](https://genesis.com).
