

2022 GENESIS G80

FOLLOW YOUR OWN SET OF RULES.

Here's one thing we've noticed about Genesis owners. You're not the type to follow the herd, or make the predictable choice. You're an iconoclast. And your insistence on seeking your own identity is what brings you here – to the Genesis G80.

For 2022, the G80 presents a clear alternative to traditional luxury sedans, projecting a new face of automobile design that is not tied to established ideas of how a luxury sedan should look and feel, inside or out.

Our heritage is being created here and now, with a design aesthetic that's new and forward-looking. Stretched over a long, low silhouette, the G80 is muscular and athletic. Its broad Crest Grille is framed on each side by two lines of light. Like illuminated wings, it's a design element that has quickly become the unmistakable look of every Genesis – recognizable day or night.

Something else that's unmistakable is the level of quality every Genesis delivers. The G80 has been ranked #1 in Initial Quality and Long-Term Dependability among Upper Midsize Premium Cars in the J.D. Power 2021 Initial Quality Study and 2021 U.S. Vehicle Dependability Study.¹

MOVE SEAMLESSLY THROUGH YOUR WORLD.

Genesis Design is redefining how luxury and performance are perceived. In doing so, designs like the G80 are creating a new dynamic born of confident athleticism. And elegant simplicity.

Everything you experience with the G80 flows effortlessly, from the way you unlock and start your car to the way you park it or connect with it remotely. The shapes that seduce your eye are infused with a sense

of latent power: A parabolic character line enhances the car's dynamic profile – and your anticipation for setting the G80's artistry in motion.

On the road, the G80's precisely controlled movements are always in sync with your desires. As the driver, you dictate the fluid manner in which the engine, steering and suspension impeccably orchestrate acceleration, handling and ride comfort.

BORN TO PERFORM.

While the G80 is perfectly comfortable sharing the road, its attitude is fully revealed when you have the road all to yourself.

THE ROAD IS CALLING. THIS IS HOW YOU ANSWER IT.

Press your G80 2.5T's accelerator pedal, and the response of its 300-hp turbocharged engine² – the most potent 4-cylinder engine in its class³ – pushes you firmly into the driver's seat. Traction is offered with two options: Rear Wheel Drive or available All Wheel Drive.

Reach for the rotary Shift-by-Wire knob on the center console, and the knurled textures engraved around the edge of its tempered glass make an immediate impression. As you shift from Park into Reverse or Drive, the dial's illumination changes color.

That quickness and agility you feel? It's derived from an impressive power-to-weight ratio. The G80's rigid steel body structure is clad with hood, door and trunk panels forged from lightweight aluminum. The less weight an engine needs to move, the more effortless those movements become. A precise steering ratio adds to the G80's handling reflexes, while an Electric Brake Booster amplifies your stopping power. Press the brake pedal, and the response is quick, quiet and linear.

Drive Mode Select lets you choose your preferred driving dynamic – Eco, Comfort, Sport, Smart or a Custom Mode – at the press of a button. Ready to set your ambitions in motion?

CONTROL YOURSELF.

The aggressive style of the G80 3.5T AWD Sport hits you right between the eyes. Even at first glance, you can feel your emotions start to stir. Unique design elements like front and rear Sport bumpers and Sport-exclusive 19" or 20" wheel designs have that effect.

As the driver, you're always in precise control of the car's performance dynamics. It starts with the driver seat: Deeply supportive, it includes Power Bolster adjustment and a Power Cushion Extension. Now you're ready for this – the thrust of a 3.5L Twin-Turbo V6 that pours out a silky-smooth 375 hp and heart-pounding 391 lb-ft of torque.²

An Electronically Controlled Suspension with Road Preview uses the G80's forward-facing camera to scan the road ahead for speed bumps or potholes, then reacts instantly by adjusting front and rear damping to optimize ride comfort and handling control. Ride settings can also be selected by the driver. Still craving more control? The 3.5T Sport Prestige adds a Flexible Brake Mode that lets you change the brake response from Comfort to Sport.

3.5L TWIN-TURBO GDI+MPI V6

THE THRILL IS IN THE PRECISION.

Wrapped around the 3.5T Sport Prestige model's unique 20" Sport Wheels are All-Season or Summer tires that give you a firm grip on the road. To help you ensure maximum acceleration and straight-line stability, an available Launch Control feature optimizes torque and minimizes wheel slip.

Want to tune performance variables to your exact preferences? With its Sport+ Drive Mode, the 3.5T Sport Prestige lets you select sportier gear shift timing with the ability to hold upshifts. The idle can be raised from 750 to 1,000 RPM, and you can tune the Electronically Controlled Suspension for a sportier feel as well.

There's even a new Rear Wheel Steering feature available on the 3.5T Sport Prestige that helps reduce the G80's turning radius for greater maneuverability in tight spots and improved turning stability in corners. Depending on driving speed, drive mode and front-wheel steering angle, the steering angle of the rear tires can adjust by a maximum of 2 degrees. And with that kind of precision, the performance is truly thrilling.

IT'S LIKE YOU'RE SURROUNDED BY AN INVISIBLE SHIELD.

The suite of safety technologies in the G80 form one of the most advanced mobile protection systems ever offered in an automobile. As you move down the road, accident-avoidance features like Forward Collision-Avoidance Assist (FCA) stand guard.⁴ In addition to helping avert collisions with slowed or stopped cars, pedestrians or cyclists in front of your car, it can instantly assess the risk of colliding with oncoming traffic while turning left in an intersection and bring the car to a stop.⁵

2022 Genesis G80⁶

01 LANE FOLLOWING ASSIST AND LANE KEEPING ASSIST WITH ROAD EDGE DETECTION

Using the front camera to detect lane markers on the pavement, these features engage subtle steering corrections to help avoid unintentional lane departures. Even when lane markings aren't visible, your G80 can detect the edge of a road or determine a virtual path based on movements of the preceding vehicle.⁷

02 SMART CRUISE CONTROL AND INTELLIGENT SPEED LIMIT ASSIST

How intelligent is the G80's Smart Cruise Control with Stop & Go? It adjusts your speed automatically to maintain a set distance from the vehicle ahead. If needed, it brings your car to a complete stop, and can start again without driver input.⁸ An Intelligent Speed Limit Assist feature uses the navigation system's map data and front camera sign detection to alert the driver to speed limit changes. You can accept the change of speed with the press of a button on your steering wheel.⁹

03 PARKING EXIT ASSIST AND BLIND-SPOT COLLISION-AVOIDANCE ASSIST

If your G80 detects a vehicle in your blind spot while the turn signal is on, it issues an alert and automatically applies light braking before you change lanes to help avoid a collision. It also monitors for vehicles approaching from behind to help prevent collisions when you are exiting a parallel parking spot.¹⁰

WILL WONDERS NEVER CEASE?

At Genesis, we constantly ask ourselves what's possible. Can the safe distance and speed between your G80 and the vehicle ahead of you be maintained automatically while driving on a highway? Is there a way to help keep your G80 centered in its lane while driving, even as you're steering through a curve? An advanced Highway Driving Assist feature provides the answers.¹¹

01 SAFE EXIT ASSIST AND REAR OCCUPANT ALERT

After parking, the Safe Exit Assist feature issues an alert when a vehicle is detected to be approaching from behind, letting the driver know it may not be safe for passengers to open the street-side door.¹² Another safety feature – Ultrasonic Rear Occupant Alert – is available to help ensure your family's safety, even after you've exited your G80.¹³

02 BLIND-SPOT VIEW MONITOR AND SURROUND VIEW MONITOR

If you can see trouble, you stand a better chance of avoiding it. The G80 is available with features like a Surround View Monitor that helps manage tricky parking maneuvers¹⁴ and a Blind-Spot View Monitor that helps negotiate lane changes by showing views of either blind spot on your instrument display after the turn signal is activated.¹⁵ The Genesis Connected Services app also lets you check your vehicle's surroundings remotely.¹⁶

01

02

03

03 FORWARD ATTENTION WARNING AND DRIVER ATTENTION WARNING

The G80's available 12.3" 3D Digital Instrument Cluster comes equipped with an infrared camera that checks the driver's eye position. If drowsiness or inattentiveness is detected, a visual alert is displayed and an audible warning sounds.¹⁷ Sensors in the G80's chassis can also issue a warning if driving patterns associated with fatigue or inattentiveness are detected.¹⁸

04

05

04 REAR CROSS-TRAFFIC COLLISION-AVOIDANCE ASSIST AND PARKING COLLISION-AVOIDANCE ASSIST (REAR)

Your G80 can warn of vehicles approaching from the side while you're exiting a parking space in reverse gear. An additional Parking Collision-Avoidance Assist feature uses the rear camera and ultrasonic sensors to warn of pedestrians or obstacles while backing into or out of parking spaces. If necessary, both features apply emergency braking automatically to help prevent a mishap from occurring.¹⁹

05 FRONT CENTER AIRBAG

Designed to deploy in the space between the driver and passenger seats, this airbag helps prevent front-row passengers from colliding with each other in the event of a side collision. If no one is in the front passenger seat, the airbag will protect the driver from vehicle components in a side collision. (2021 2.5T Prestige photo shown)

IN A COMPLEX WORLD,
SIMPLICITY IS YOUR SANCTUARY.

Inside the G80, Genesis Design has created an oasis of calm. What surrounds you isn't an overabundance of buttons, switches and controls, but a beautifully detailed space that reveals less can indeed be more.

THE LUXURY OF HARMONY.

The lines, textures and illumination in the G80 interior inform your sense of space, comfort and control. Each exquisite material is applied with minimalist restraint, forming surfaces that are pleasing to the touch and soothing to the eye.

The interior isn't just visually calming. It's remarkably relaxing, too. Acoustic glass in the triple-sealed front doors helps block road and wind noise. The front seats make use of innovative climate controls like the available speed-sensitive seat cooling, and heating that lets the driver and front passenger adjust the balance of warmth between their seat cushion and seatback.

This elegance extends to how the G80 turns complex technologies into simple but profound enhancements to your driving experience. An available 12.3" Digital Instrument Cluster tracks your eye movements so it can more accurately display its 3D image. Touch-Type Dual Zone Climate Control lets you adjust key climate system settings with a simple swipe of your finger.

Smart Posture Care technology elevates your relaxation even further by setting the most ergonomic seating position after analyzing the driver's physical profile data. It automatically adjusts the driver seat and steering wheel positions, lumbar support, the outside mirror position and the available Heads-up Display.

IT'S LIKE TRAVELING WITH YOUR OWN ENTOURAGE.

Some of the G80's technology amplifies performance. Some, like an available Heads-up Display that projects critical driving information onto the windshield for at-a-glance updates, enhances your safety. And some of its technology simply makes things easier. Activate Valet Mode, and you can use your smartphone to monitor your G80 while it's

under a valet's care.²⁰ Some innovations are so advanced, you won't even know they are working in the background. Connected Routing displays navigation more accurately via the cloud.²¹ And with Over the Air Updates, your G80's head unit software is automatically updated.²²

ERGO MOTION SEAT (DRIVER)

The G80's available Ergo Motion Seat contains seven individual air cells in the seatback and seat cushion. A button on the side of the seat lets you choose your settings from a menu for inflating or deflating the cells for posture support, or stretching your back and thighs to help fend off the fatigue of long drives.

GENESIS DIGITAL KEY

Genesis Digital Key is available for unlocking your G80's front doors and starting the engine using your compatible Android™ smartphone or your NFC Card Key.²³ Your Digital Key can be shared with up to three people. Driver and guest preferences for driver seat position, audio presets and more are maintained in the Genesis cloud.

HANDS-FREE SMART TRUNK

Hands full as you approach your G80? No worries. Stand within three feet of the trunk for at least three seconds, and a Hands-Free Smart Trunk with Auto Open recognizes your key fob and pops the trunk lid open automatically for easy access to the car's spacious cargo area.²⁴

REMOTE SMART PARKING ASSIST

How smart is this? With the available Remote Smart Parking Assist, you can park your G80 using the key fob as a simple remote control. Your G80 effortlessly moves into or out of tight parking spots. No need for shifting gears or turning the steering wheel – it's all handled automatically.²⁵

WIRELESS DEVICE CHARGER - FRONT

Your life revolves around your smartphone and the contacts, music and apps you have on it. An available Wireless Device Charger keeps your phone powered up when you're on the go.²⁶ The G80 also offers power to the people with four USB charge ports – two in front, and two for rear-seat passengers.

12.3" 3D DIGITAL INSTRUMENT CLUSTER

The G80 is available with a 12.3" Digital Instrument Cluster that can be configured for 2D or stereoscopic 3D views. The driver can toggle between a variety of views on the central LCD area using a steering wheel control switch, and the graphics being displayed will change based on the drive mode selected.

SEE THINGS FROM A WIDER PERSPECTIVE.

The G80's Premium Navigation System and 14.5" HD Screen reflect in-car multimedia at its most refined. Our designers created a Genesis font and Genesis copper graphics for the 2,560 x 720 DPI display, giving it a modern, elegant appearance. The expansive width includes a split-screen that lets you customize one-third of the touch surface with the audio, weather or navigation content of your choosing.

The Premium Navigation System is a cloud-connected platform with fast, accurate routing similar to your mobile device.²¹ Dynamic Voice Recognition – an intelligent personal agent that responds to conversational commands – is also onboard. You can ask for directions to the nearest gas station or local restaurants. Get weather forecasts. Ask your G80 to roll up the windows or dial a friend – all by pressing a steering wheel button.²⁷

Done talking? Turn on your G80's available 21-speaker Lexicon® Premium Audio System. With a 14-channel digital external amplifier, 5-speaker soundbar center channel, Kevlar cone front midrange speakers, underseat subwoofers and QuantumLogic® Surround Sound technology, it's sonic nirvana. You'll enjoy listening to your favorites via SiriusXM Satellite Radio, HD Radio,[™] Apple CarPlay,[®] Android Auto[™] and Bluetooth[®] streaming.²⁸

GENESIS CONNECTED SERVICES

With Genesis Intelligent Assistant,[®] you can remotely check to see if you left your G80's doors unlocked or a window open – even view an overhead snapshot of your vehicle and its surroundings – on your mobile device.¹⁶

Want your G80's cabin to be the perfect temperature when you enter? Ask your Genesis app, or your Amazon Echo[®] or Google Home[™] device, to remotely start the engine and climate controls from the comfort of your couch or office.²⁹ The app also lets you check the fuel

level and includes a valet mode that allows remote monitoring of your vehicle under a valet's care.

Complimentary for your first three years of ownership, Genesis Connected Services can also send monthly vehicle health reports and maintenance reminders, automatically call for assistance in an emergency, and so much more. For information on all of the services available to G80 owners, visit genesis.com.³⁰

THE GENESIS EXPERIENCE

Our thoughtfully crafted suite of owner benefits are designed to elevate not just the way you drive, but the way you live. It reflects our profound commitment to meeting your needs and wants precisely. And while we can't help you make more of it, we'll help you make the most of your precious time.

TRUE LUXURY ENHANCES YOUR ENTIRE OWNERSHIP EXPERIENCE.

COMPLIMENTARY SERVICE VALET

You may never need to bring your vehicle to a Genesis service center. Allow your Genesis retailer to pick up your G80 and deliver a courtesy replacement vehicle, perform any required maintenance, then return your car to your location...all while you enjoy more pleasurable pursuits. Complimentary for 3 years or 36,000 miles.

COMPLIMENTARY SCHEDULED MAINTENANCE

Enjoy a worry-free Genesis ownership experience with Complimentary Scheduled Maintenance for 3 years or 36,000 miles, whichever comes first. Complimentary oil changes are also included with normally scheduled maintenance appointments at a Genesis service center.

24/7 ENHANCED ROADSIDE ASSISTANCE

Peace of mind is another essential luxury. Should your travel plans take an unexpected turn, five-year complimentary Roadside Assistance provides tire changes or transportation to the nearest Genesis retailer. Reimbursement for an overnight stay is included if needed.

GENESIS CONNECTED SERVICES

Every new G80 includes three years of complimentary Genesis Connected Services. It's an exclusive suite of safety, car care, guidance and remote features that help keep you connected to your digital life and the things you need on the go.³⁰

SIRIUSXM ALL ACCESS SATELLITE RADIO

Complimentary for your first three months, SiriusXM All Access offers one of the widest varieties of entertainment anytime, anywhere. Enjoy every channel available on your satellite radio – including personalized stations powered by Pandora® – and listen in your G80 or on your computer, smartphone or tablet with the SiriusXM app.³¹

NAVIGATION AND MULTIMEDIA UPDATES

To ensure you're accessing up-to-date driving directions, your G80's Navigation System comes with annual map updates – complimentary for three years during routine maintenance visits with Genesis. Over the Air Updates are available through Genesis Connected Services.

FOOTNOTES

¹Genesis G80 received the fewest reported problems in its segment in the J.D. Power 2021 U.S. Vehicle Dependability Study (based on 2018 models) and the U.S. Initial Quality Study. See jdpower.com/awards for 2021 details. ²Horsepower ratings with premium fuel. ³Claim versus 4-cylinder engine competitors based on comparison of specifications on manufacturer websites. ⁴Forward Collision-Avoidance Assist (FCA) with Pedestrian and Cyclist Detection helps detect pedestrians and cyclists, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles, pedestrians and cyclists under certain road, weather and vehicle conditions. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for the system's alerts before braking as there may not be sufficient time to brake safely. See Owner's Manual for further details and limitations. ⁵Junction Turning helps the driver avoid collisions involving turning left at an intersection by applying the opposing front brake only when an oncoming vehicle is detected in the opposing lane. There are limitations to the function, detection, range and clarity of the system. Junction Turning may not function correctly if one or more of the sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. It will not prevent loss of control. This driver assistance system is not a substitute for safe driving. See Owner's Manual for further details and limitations. ⁶To qualify for 2021 TOP SAFETY PICK+, a vehicle must earn good ratings in the driver-side small overlap front, passenger-side small overlap front, moderate overlap front, side, roof strength and head restraint tests. It also must earn an advanced or superior rating for vehicle-to-vehicle and vehicle-to-pedestrian front crash prevention and come with standard acceptable- or good-rated headlights. For details visit www.iihs.org. ⁷Lane Keeping Assist with Road Edge Detection (LKA-RED) helps avoid unintentional lane departures by detecting the edge of the road even when the lane markings are not clearly visible. LKA-RED will not work under all circumstances and will not prevent loss of control. There are limitations to the function, detection, range and clarity of the system. LKA-RED may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. LKA-RED is a supplemental assist and does not replace the need for extreme care and attention by the driver. See Owner's Manual for further details and limitations. ⁸Smart Cruise Control (SCC) is not a collision-avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible to slow or stop the vehicle to avoid a collision. SCC initiates a full stop when the traffic ahead stops and reengages if the vehicle ahead moves forward within 3 seconds. See Owner's Manual for details and limitations. ⁹Intelligent Speed Limit Assist (ISLA) can help the driver maintain cruise control speed limit using speed limit sign recognition. ISLA cannot detect all speed limit signs, including when speed limit signage is obscured or beyond the camera's field of view. Driver is responsible for observing posted speed limits. See Owner's Manual for details and limitations. ¹⁰Blind-Spot Collision-Avoidance Assist (BCA) assists the driver by warning of other cars in the rear blind-spot region. There are limitations to the function, range, detection and clarity of the system. BCA may not operate if sensors are obscured in any way. Do not rely exclusively on BCA - it is a supplemental system, and the driver must be attentive and exercise caution when driving. It is important to always signal, look over your shoulder and through your mirrors before changing lanes. Parking Exit Assist (PEA) helps prevent collisions when exiting parallel parking spots. It can alert the driver of a potential hazard. Never rely exclusively on PEA when exiting a parking space, as it is not a substitute for attentive driving. Always look over your shoulder and use your mirrors to confirm clearance. There are limitations to the function, detection, range and clarity of the system. PEA may not function correctly if one or more of the parking sensors is damaged, dirty or covered or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. See Owner's Manual for details and limitations. ¹¹Highway Driving Assist II (HDA2), when used in conjunction with Lane Following Assist and Smart Cruise Control, is for highway use only and can help keep your vehicle centered in its lane while maintaining a safe distance from other vehicles ahead when the lane markings are clearly visible on the road. HDA2 should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA2 will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the vehicle to avoid a collision. HDA2 may not function correctly if one or more of the vehicle sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. Always drive carefully and use extreme caution when other vehicles are present. See Owner's Manual for details and limitations. ¹²When your vehicle is parked, Safe Exit Assist (SEA) can alert occupants planning to exit when a vehicle is approaching from behind. When Child Locks are active, SEA prevents the rear doors from opening if a vehicle approaching from behind is detected. SEA is not a substitute for attentive driving. See Owner's Manual for details and limitations. ¹³When the vehicle is parked and the engine has been turned off, Ultrasonic Rear Occupant Alert (UROA) can help alert the driver if it detects movement from a child or pet. Upon exiting and locking the vehicle, the UROA may provide visual, audible and/or Genesis Connected Services (GCS) alerts if interior sensors detect movement. UROA is not a substitute for driver attentiveness. Never leave a child or pet unattended in a vehicle. GCS notification requires a properly equipped vehicle with an active GCS account. See Owner's Manual for details and limitations. ¹⁴Surround View Camera System (SVCS) is a parking support system. SVCS cannot completely eliminate blind spots, may not detect every object and does not warn of moving objects. Always check your surroundings before moving your vehicle. See Owner's Manual for further details. Remote image capture requires active Genesis Connected Services account. ¹⁵The Blind-Spot View Monitor (BVM) assists the driver in changing lanes by providing a live view of the blind spots on either side of the vehicle and an audible alert if another vehicle is detected. Turn signal must be activated, and other system limitations apply. Do not rely exclusively on BVM. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for details and limitations. ¹⁶Remote features are subject to adequate cellular coverage, signal strength and battery power, and only available in the 50 United States. You must be an active subscriber or within the initial free-trial period to receive Genesis Connected

Services. ¹⁷Forward Attention Warning (FAW) is available on the G80 3.5T. FAW helps monitor the driver's eye position using an infrared camera and provides an audible warning if it detects a potential lack of driver attention. It does not detect and provide an alert in every situation. It is the driver's responsibility to remain alert at all times. See Owner's Manual for details and limitations. ¹⁸It is the driver's responsibility to remain alert at all times. Driver Attention Warning is only a warning to inform the driver of a potential lack of driver attention or drowsiness. It does not detect and provide an alert in every situation. See Owner's Manual for further details and limitations. ¹⁹Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross traffic behind their vehicle. When another vehicle is detected while you are backing out of a parking spot, it provides audible and visual display warnings and applies braking if it senses a collision is imminent. RCCA is active when the vehicle is in reverse gear and backing at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle. Never rely exclusively on RCCA. Parking Collision-Avoidance Assist (PCA-R) can alert the driver of a potential hazard by providing an audible warning and, if deemed necessary, applying light braking. PCA-R is active when the vehicle is in reverse gear and operating at low speeds. Never rely exclusively on PCA-R when exiting a parking space, as it is not a substitute for attentive driving. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. ²⁰Valet Mode helps drivers protect their personal information by limiting head unit access when the vehicle is not in their possession, and allows for remote monitoring of the vehicle while it is in a valet's care. Valet Mode requires active subscription to Genesis Connected Services and a wireless connection. See Owner's Manual for details and limitations. ²¹Connected Routing helps drivers access the latest traffic and road conditions. It requires an active subscription to Genesis Connected Services and a wireless connection. See Owner's Manual for further details and limitations. ²²Over the Air Updates require a Genesis Connected Services subscription. ²³Near Field Communication (NFC) digital smartphone key requires a compatible Android smartphone and an appropriately equipped vehicle. Not all Android devices are compatible. See your Owner's Manual for details and limitations. ²⁴The smart trunk will open when your Proximity Key is within 40 inches of the detection area for at least 3 seconds. Radio transmitters and other vehicle smart keys may interfere with the normal operation of this feature. See Owner's Manual for details and limitations. Always close your trunk before operating vehicle. ²⁵Remote Smart Parking Assist (RSPA) can help remotely park the vehicle. However, several factors can impact RSPA performance. RSPA may not function correctly if one or more of the parking sensors is damaged, dirty or covered or if weather conditions (heavy rain, snow or fog) interfere with sensor operation. Always inspect the parking area with your own eyes. See Owner's Manual for details and limitations. ²⁶Qi wireless charging function is based on smartphone compatibility and/or specific accessory cases. ²⁷Dynamic Voice Recognition varies by unit. Speak in a normal voice and minimize background noise for best results. See Owner's Manual for details and limitations. ²⁸Android Auto requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. Google, Android, Android Auto, Google Play and other marks are trademarks of Google Inc. Apple CarPlay works with iPhone 5 and later models running the latest version of iOS 7.1 and above. Apple is a registered trademark of Apple Inc. ²⁹Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google Home and Google Assistant are trademarks of Google Inc. ³⁰Genesis Connected Services are complimentary for three years and require an active subscription agreement subject to the Connected Services Terms and Conditions. Three-year term starts from the new vehicle date-of-first-use and is available for new 2021 model-year vehicle purchases and leases, as well as transferable to subsequent owners subject to the Terms and Conditions. Only use Genesis Connected Services and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications, and fees are subject to change. For more on details and limitations, visit genesis.com or an authorized retailer of Genesis branded products. ³¹All SiriusXM services require a subscription sold separately, or as a package, by Sirius XM Radio Inc. after the trial period has elapsed. The subscription plan you choose will automatically renew, and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change. Satellite and outside-the-car lineups vary slightly. Sirius, XM, SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc. ³²EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle's condition. ³³Powertrain Limited Warranty available for original retail owner only.

Genesis Experience Notes: Genesis Service Valet is for 2022 model-year vehicles for maintenance for 3 years/36,000 miles and for warranty repairs. Coverage area varies by retailer. Mileage and ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. Genesis Complimentary Maintenance is for 2022 model-year vehicles for factory-recommended scheduled maintenance for 3 years/36,000 miles. Ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. Multimedia and Navigation Map Care updates are available annually for 2022 model-year vehicles for 3 years after purchase with a regularly scheduled maintenance appointment. Availability timing of software updates may vary. Ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. Genesis Connected Services are available for 3 years complimentary for 2022 model-year vehicles. Enrollment is required. Ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. SiriusXM® audio trial is 90 days. Ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. Roadside Assistance is complimentary for 5 years/unlimited miles for 2022 model-year vehicles. Mileage and ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. See your Genesis retailer for details on any of the programs or services listed here.

DRIVING IS BELIEVING.

You've heard what we have to say about the 2022 Genesis G80. Now there's just one thing left for you to do. Visit your Genesis retailer and experience first-hand what luxury and performance on your own terms feels like.
