*The consumption and emission values shown were determined according to the statutory legal measurement procedures. The fuel consumption and emission values shown are based on the Worldwide Harmonised Light Vehicles Test Procedure (WLTP). Further information on the WLTP measurement procedures can be found at https://www.genesis.com/uk/en/wltp.html. Due to the more realistic test conditions, the fuel consumption and CO_2 emission values measured in accordance with the WLTP are often higher than those measured according to the NEDC.
